

STATE OF MAINE
PUBLIC UTILITIES COMMISSION

Docket No. 2004-346

September 8, 2004

DSCI CORPORATION

Petition for Finding of Public
Convenience and Necessity to
Provide Service as a Facilities Based
Local Exchange Carrier and as a Reseller
and as an Interexchange Telephone Utility

ORDER GRANTING AUTHORITY
TO PROVIDE UNE-P FACILITIES-BASED
AND RESOLD LOCAL EXCHANGE
SERVICE AND INTEREXCHANGE
SERVICE AND APPROVING SCHEDULE
OF RATES AND TERMS AND
CONDITIONS

WELCH, Chairman; DIAMOND and REISHUS, Commissioners

In this Order, the Commission grants DSCI Corporation d/b/a DSCI Telecommunications Corporations (DSCI or Company) the authority to provide UNE-P facilities-based and resold competitive local exchange service in the service area of Verizon-Maine and intrastate interexchange service in the State of Maine, and approves the Company's Terms and Conditions and Rate Schedules. We also exempt DSCI from the requirements of Chapter 210, *Uniform System of Accounts*, and of 35-A M.R.S.A. §§ 707 and 708, subject to the conditions described below.

I. APPROVAL OF APPLICATION TO SERVE

On June 2, 2004, pursuant to 35-A M.R.S.A. §§ 2102 and 2105, DSCI filed a petition with the Commission requesting authority to provide facilities-based and resold local exchange telephone service and resold interexchange service, and dedicated services in Maine. Before we grant approval under section 2102 for another public utility to provide service, 35-A M.R.S.A. § 2105 requires us to find that the public convenience and necessity require another utility to provide service in a location where utility is already authorized to provide, or is providing, the same or similar service.

47 U.S.C. § 253(a), enacted by the Telecommunications Act of 1996, states:

(a) In General. No State or local statute or regulation, or other State or local legal requirement, may prohibit or have the effect of prohibiting the ability of any entity to provide any interstate or intrastate telecommunication service.

47 U.S.C. § 253(b) states, however:

(b) State Regulatory Authority. Nothing in this section shall affect the ability of a State to impose, on a competitively neutral basis and consistent with section 254, requirements necessary to preserve and advance universal service, protect the public safety and welfare, ensure the continued

quality of telecommunications services, and safeguard the rights of consumers.

We find that granting DSCI the authority to provide local exchange and interexchange services in Maine will not impede the preservation or advancement of the public interest goals or policies stated in section 253(b).

DSCI's application provides reasonable information indicating that its financial and management capabilities are adequate to provide local and interexchange services in Maine.

II. SERVICE TERRITORY

A. Interexchange Service Authority

DSCI has requested authority to provide resold interexchange service throughout the state. We grant that authority.

B. Local Service Authority

1. Facilities-Based Service

DSCI specified that it will provide only UNE-P facilities-based local exchange service. As a UNE-P provider, DSCI will not need to obtain its own numbering resources. If DSCI wishes to expand its facilities-based authority to include services requiring DSCI to obtain its own numbering resources, it shall seek approval pursuant to 35-A M.R.S.A. §2102, requesting the Commission to amend this Order. Any such request must specify the specific exchanges where it proposes to offer service and include information establishing a readiness to provide facilities-based local exchange service within six months in the specifically identified areas.

2. Resold Service

DSCI has also requested authority to provided resold local exchange service throughout Verizon-Maine's service area. DSCI states that it will offer service as a reseller of local exchange service provided by other authorized local exchange carriers (LECs). We define local resale as the offering of local exchange service purchased from another competitive local exchange carrier (CLEC) pursuant to 47 U.S.C. § 251(b)(1) or from an incumbent local exchange carrier (ILEC) at a wholesale discount pursuant to 47 U.S.C. § 251(c)(4). The purchase of unbundled network elements from an ILEC and their use in providing local exchange service is facilities-based service and is not resale.

C. Dedicated Service

We are granting authority to DSCI to provide unswitched dedicated services, which may be provided using its own or leased facilities or dedicated services that it purchased from other carriers and resells. Dedicated facilities are capable of carrying both local and interexchange traffic. The grant of authority to provide dedicated unswitched services using facilities owned or controlled by DSCI does not constitute authority to provide facilities-based switched local exchange or entitle DSCI to request numbering resources from NANPA or the Pooling Administrator. Further, DSCI acknowledges that if its business plans change and it wishes to amend its authority to include services requiring DSCI's own numbering resources, it must seek approval pursuant to 35-A M.R.S.A. § 2102, requesting the Commission to amend this Order. Any such request must specify the specific exchanges where it proposes to offer service and include information establishing a readiness to provide facilities-based local exchange service within six months in the specifically identified areas.

III. APPROVAL OF TERMS AND CONDITIONS AND RATE SCHEDULES

We allow the terms and conditions proposed by DSCI to go into effect. DSCI did not use the Commission's standard terms and conditions that comply with Maine law and the Commission's Rules. We have reviewed the Company's petition, Terms and Conditions, and Rate Schedules, and they appear to comply with Maine law and the Commission's Rules. Nevertheless, if there is any conflict between a provision in DSCI's terms and conditions and the Commission's Rules or a statute, the rule or statute will control. Included in the Terms and Conditions is a provision stating that in the event of such a conflict, the statute or the Commission's Rule will control.

In general, the Commission believes that a competitive telecommunications market results in services and rates that benefit the public. We believe that the acceptability of DSCI's services and rates in the market place provides an adequate test of the reasonableness of the Company's rates. Accordingly, we allow the rates proposed by DSCI to go into effect.

IV. INTERCONNECTION AGREEMENT(S)

In order to provide local exchange service, a CLEC must, as a practical matter, obtain an interconnection agreement with the ILEC(s) providing service in any area where it intends to provide service. In the absence of such an agreement, it will not be possible for DSCI's customers to call customers of the ILEC(s), and vice versa. Interconnection agreements are governed by 47 U.S.C. § 252, and must be approved by this Commission.

If a CLEC makes a bona fide request for an interconnection agreement with an ILEC that is a "rural telephone company" as defined in 47 U.S.C. § 153 (37), the "rural exemption" of 47 U.S.C. § 251 (f) will apply. All of Maine's independent incumbent local exchange carriers are "rural telephone companies." A rural telephone company is not

required to negotiate an interconnection agreement or provide interconnection until after the Commission, pursuant to 47 U.S.C. § 251(f)(1)(B), finds that the requirement “is not unduly economically burdensome, is technically feasible, and is consistent with [the universal service provisions of] section 254” Although the service territory we grant today is statewide and DSCI’s terms and conditions do not limit its service territory, as a practical matter it cannot offer local exchange service in the service territory of a rural ILEC until such time as that ILEC’s rural exemption is terminated.

If DSCI executes an interconnect agreement(s) with ILECs(s) it shall seek approval of that agreement by this Commission.

V. PAYMENT OF ACCESS CHARGES

Our approval of DSCI’s application to provide interexchange service in Maine is conditioned on the payment of access charges to local exchange carriers (LECs) who have on file with the Commission approved access charge rate schedules.

The Commission has granted authority to DSCI to provide interexchange service both as a facilities-based carrier and as a switchless reseller.¹ If DSCI provides facilities-based interexchange service, it must pay access charges directly to local exchange carriers. Switchless resellers do not pay access charges to local exchange carriers. Instead, access charges are paid by an underlying facilities-based interexchange carrier. As a condition of granting authority to a switchless reseller to provide intrastate service in Maine, its underlying facilities-based carrier must also have authority to provide intrastate service in Maine. DSCI has stated that Qwest will be the underlying carrier from which it purchases interexchange services that it resells. Qwest is authorized by the Commission to provide intrastate interexchange service and does pay access charges for the intrastate interexchange services it sells to DSCI. If DSCI begins to use another authorized underlying carrier, it shall notify the Commission as required by the ordering paragraphs. If DSCI begins to provide facilities-based interexchange service, it shall notify the Commission and all LECs from which it obtains access, as required by the ordering paragraphs.

VI. WAIVERS; REPORTING REQUIREMENTS

As a condition of providing local exchange service, DSCI must comply with the terms of any applicable Commission orders or rules that may govern local interconnection and compensation for interconnection. DSCI shall also comply with any

¹We define switchless resellers as entities which do not own, lease, or control any switching facilities, or private lines, that it will use to provide telecommunication services in Maine. A reseller who owns a switch in another state, and plans to use that switch to switch or carry Maine traffic, is a switched reseller. A reseller who does not own facilities in Maine or any other state, or who owns facilities in another state but does not plan to use that switch to carry Maine traffic, is a switchless reseller.

applicable Commission Rules or orders that govern universal service, public safety and welfare, service quality and consumer rights.

Pursuant to sections 11(A) and 12(A) of Chapter 280, which govern carriers' interexchange activities, DSCI is exempt from Chapter 210 of the Commission's Rules, which governs telephone utility accounting and annual financial reports, and from 35-A M.R.S.A. §§ 707 and 708, which govern approvals for reorganizations and contracts with affiliated interests. The Commission has the authority to grant such waivers on its own motion, and we do so. Because DSCI's rates and operations are likely to be subject to market forces, we do not see any present need to subject the Company to those requirements.

In addition, DSCI shall inform the Commission of any changes to its corporate structure and ownership and of any changes in the name under which it does business, as set forth in the ordering paragraphs below. If necessary, it shall also refile its rate schedules and terms and conditions to reflect its new identity.

VII. OTHER REQUIREMENTS

DSCI shall comply with all applicable rules of the Commission and statutes of the State of Maine, including the customer notification rule described in the ordering paragraphs below.

VIII. ORDERING PARAGRAPHS

Accordingly, we

1. Grant, pursuant to 35-A M.R.S.A. §§ 2102 and 2105, the request of DSCI to provide UNE-P facilities-based and resold competitive local exchange telephone service in the service area of Verizon-Maine, interexchange service, and dedicated service in the State of Maine; and

2. Exempt DSCI from the requirements of Chapter 210 of the Commission's Rules, except that it must report the revenue and minutes of use information that is requested by the Commission, on or before April 1 of each year; and

3. Exempt DSCI from approval requirements of 35-A M.R.S.A. §§ 707 and 708, but DSCI shall provide notice to the Commission of any reorganization, as defined in 35-A M.R.S.A. § 707 (1)(A), that results in a merger, sale or transfer of a controlling interest of DSCI or of any entity that owns more than 50% of DSCI. The notice required by this subsection shall be filed within 10 days following any reorganization described herein, as required by Chapter 280, § 12(B). As required by Chapter 280, § 12(C), DSCI shall also provide notice of any other changes in the name under which it does business (d/b/a), any change of the location of its business office, and any change of its contact person. DSCI shall provide the Administrative Director of the Commission with notice of any of the changes described within 30 days following the change. If

necessary, DSCI shall amend its rate schedules and terms and conditions to reflect any change in identity; and

4. Order that DSCI's proposed terms and conditions and rate schedules (Sections 1-10), attached to this Order, shall be effective on the date of this Order;

5. Order that DSCI, or an underlying facilities-based interexchange carrier authorized to provide interexchange service in Maine, shall pay interexchange access charges as required approved access rate schedules filed by local exchange carriers.

DSCI shall notify the Commission of any change in its underlying carrier within 30 days following the change. Any underlying carrier used by DSCI shall have the authority to provide intrastate interexchange service in Maine. DSCI shall immediately inform the Commission and all local exchange carriers in the State of Maine from which DSCI will be purchasing access services if there is any change in its operations that will result in its carrying, switching, or any processing of any of its own traffic, at which time DSCI shall begin to pay access charges directly to those local exchange carriers that have approved access charge schedules on file with the Commission; and

6. Order that DSCI shall comply with all applicable rules of the Commission, including the requirement of 35-A M.R.S.A. § 7305 that interexchange carriers provide notice to all affected customers of any increase to any rate at least 25 days prior to the increase taking effect.

Dated at Augusta, Maine, this 8th day of September, 2004.

NOTICE OF RIGHTS TO REVIEW OR APPEAL

5 M.R.S.A. § 9061 requires the Public Utilities Commission to give each party to an adjudicatory proceeding written notice of the party's rights to review or appeal of its decision made at the conclusion of the adjudicatory proceeding. The methods of review or appeal of PUC decisions at the conclusion of an adjudicatory proceeding are as follows:

1. Reconsideration of the Commission's Order may be requested under Section 1004 of the Commission's Rules of Practice and Procedure (65-407 C.M.R.110) within 20 days of the date of the Order by filing a petition with the Commission stating the grounds upon which reconsideration is sought.
2. Appeal of a final decision of the Commission may be taken to the Law Court by filing, within **21 days** of the date of the Order, a Notice of Appeal with the Administrative Director of the Commission, pursuant to 35-A M.R.S.A. § 1320(1)-(4) and the Maine Rules of Appellate Procedure.
3. Additional court review of constitutional issues or issues involving the justness or reasonableness of rates may be had by the filing of an appeal with the Law Court, pursuant to 35-A M.R.S.A. § 1320(5).

Note: The attachment of this Notice to a document does not indicate the Commission's view that the particular document may be subject to review or appeal. Similarly, the failure of the Commission to attach a copy of this Notice to a document does not indicate the Commission's view that the document is not subject to review or appeal.
